PROFESSIONAL SUMMARY

Backend-focused Full Stack Developer specializing in Python and Django with hands-on experience building production-ready web applications and RESTful APIs. Experienced in designing scalable backend systems, implementing role-based access control, and developing inventory and AI-integrated platforms. Strong focus on clean architecture, database design, and secure API development. Comfortable developing responsive interfaces using HTML, CSS, and Bootstrap, and writing clean, maintainable code in collaborative environment teams.

TECHNICAL SKILLS

Backend: Python, Django, Django REST Framework
Databases: SQLite, PostgreSQL
Frontend: HTML, CSS, Bootstrap
Tools & Practices: Git, GitHub, RESTful API Development, Authentication & Role-Based Access Control, Agile/Scrum, Debugging & Testing

PROFESSIONAL EXPERIENCE

Backend Developer Intern

RHIPFactory Venture Studios (Remote – Nigeria)

- Designed and maintained Django backend services for the Obeeoma AI-powered mental health platform
- Built RESTful APIs consumed by React and React Native frontend applications
- Implemented authentication, user management, and role-based access control
- Developed and optimized database models using PostgreSQL
- Integrated AI chatbot functionality into backend services
- Collaborated closely with frontend developers to ensure seamless API integration

- Improved backend performance through debugging, testing, and query optimization

Technologies: Python, Django, Django REST Framework, PostgreSQL

Full Stack Developer (Python/Django)

Karibu Groceries Ltd – Inventory Management System

- Developed a Django-based inventory and sales management system
- Implemented stock tracking, credit sales management, and procurement workflows
- Built role-based dashboards for managers and sales agents
- Designed reporting features for sales and stock monitoring
- Developed responsive user interfaces using HTML, CSS, and Bootstrap

Technologies: Django, SQLite, HTML, CSS, Bootstrap

EDUCATION

Software Engineering Certificate – Refactory Academy
Uganda Advanced Certificate of Education – Kisowera Secondary School (2019–2020)
Uganda Certificate of Education – Kisowera Secondary School (2015–2018)

CERTIFICATIONS

- Software Engineering – Refactory Academy
- Agile Project Management – HP LIFE

LANGUAGES

English – Fluent
Luganda – Native
